Letter-Day Schedule  
2008-2009

# Letter-Day Schedule

- Starting in September 2008 the Lenape Regional High School District will be implementing a Letter-Day schedule.
- Instead of the current method of assigning days of the week to science labs and health & physical education classes, there will be a letter assigned for each day.

# Letter-Day Schedule

- The days will rotate in the following order:
  - Day 1 = Day A
  - Day 2 = Day B
  - Day 3 = Day C
  - Day 4 = Day D
  - Day 5 = Day E
  - Day 6 = Day A

# Letter-Day Schedule

- This pattern will continue for all subsequent days that school is in session.

# Letter-Day Schedule

- Rationale:
  - The current weekday schedule forces too many days of school to be missed on Mondays and Fridays.
  - This negatively affects the Monday or Friday lab science classes.
  - In a given year, these classes could miss up to 7 more than its counterparts, which are scheduled on Wednesdays.

# Letter-Day Schedule

- The letter-day schedule allows for our lab science classes to meet an equal amount of days throughout the year no matter what day they are scheduled on.
- For example:
  - Day A meets 36 times a year
  - Day C meets 36 times a year

# Letter-Day Schedule

- Benefits:
  - Lab Science classes are going to meet an equal amount of times throughout the year regardless of the what day of the week they are scheduled on.

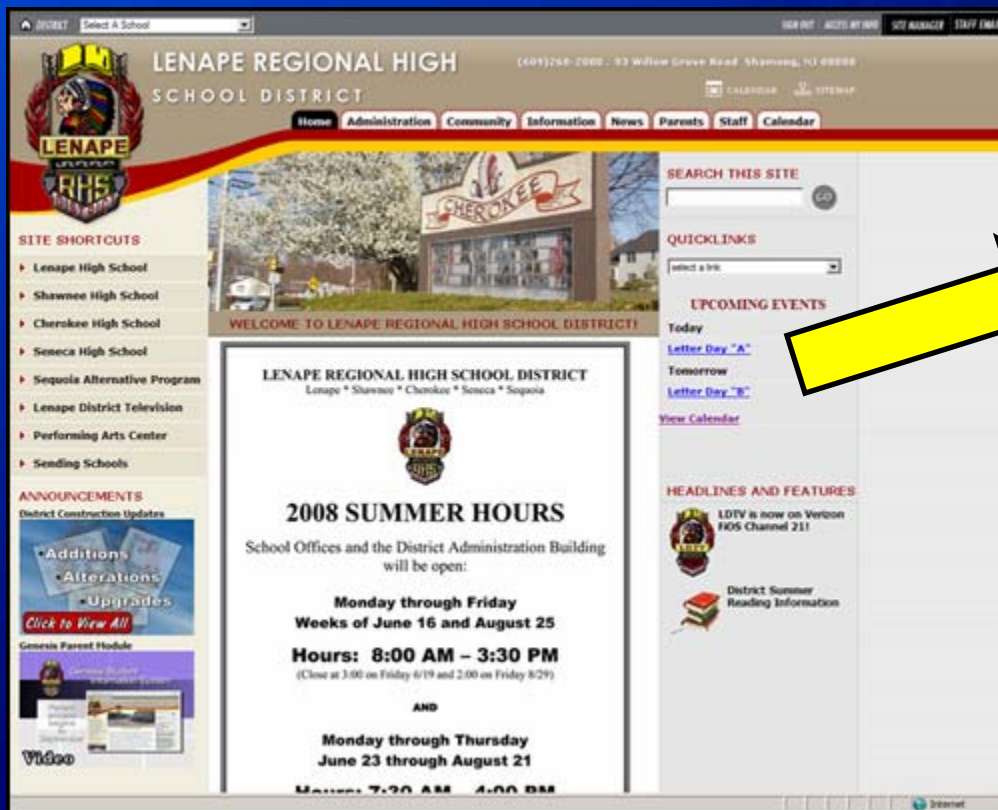

# Letter-Day Schedule

- *Who does this impact?*
  - Students and Teachers of:
    - Lab Sciences
    - Health & Physical Education Classes
    - Study Halls that do not meet 5 days a week
