SCHOOL COUNSELING
DEPARTMENT

TECHNICAL/VOCATIONAL
SCHOOL DIRECTORY

2017

As School Counselors at Cherokee High School, we find that our students have diversified interests when it comes to moving forward to meet their future goals. Students who graduate from our high school may choose to study at a two-year community school, a four-year college or university, a technical or vocational school or begin employment. To help with the research process of the technical and vocational schools, we have compiled a directory of schools located in the Delaware Valley area.

This directory provides a listing of various opportunities to help further a student's educational interests. With today's technology and economic climate, it is not feasible to list all schools, as changes do occur to schools and businesses. We hope that this directory will serve as a starting point and provide the necessary resource information to guide you. You will find that the majority of the websites listed are fairly inclusive and provide information on the Application and Admissions Process, Course Requirements, as well as Financial Aid.

See your School Counselor for more information. We also suggest that you refer to the Cherokee High School Naviance Program:

<http://connection.naviance.com/cherokeehs>

We wish you the best in your future career plans.

All-State Career School

www.allstatecareer.edu

501 Seminole Street
Lester, PA 19029
610-521-1818
