

5510 STUDENT PARKING

The following student parking policy shall be in place at all Lenape Regional High School District schools. This policy has been necessitated by the limited number of parking spaces at each school site and the large number of students who want to drive and park on school grounds.

1. Student parking shall be offered to seniors first based upon the student's attendance and disciplinary record in their junior year. Additional parking may be offered to junior students depending on availability during the school year and will be based upon the student's attendance and disciplinary record. Students having a drug or alcohol violation during their high school career will be ineligible for a student parking permit.
2. Any students who were required to attend credit completion at the end of the previous year will be ineligible for parking privileges. Students who have been awarded a parking permit and have a drug or alcohol violation will have their parking privileges revoked.
3. Attendance eligible students will be placed into six tiers of acceptance to park on school grounds with the appropriate school authorized decal.

If the parking permit application is submitted after the first day of school the tier system below will include suspensions from the students previous year and the current year up to the time of application.

Tier I	The highest level of eligibility will be seniors with zero (0) suspensions during his or her junior school year.
Tier II	The second level of eligibility will be seniors with only one (1) suspension during his or her junior school year.
Tier III	The third level of eligibility will be seniors with two (2) suspensions during his or her junior school year.
Tier IV	The fourth level of eligibility will be juniors with zero (0) suspensions during his or her sophomore school year.
Tier V	The fifth level of eligibility will be juniors with only one (1) suspension during his or her sophomore school year.

- Tier VI The sixth level of eligibility will be juniors with two (2) suspensions during his or her sophomore school year.
4. Any student with three (3) or more suspensions during the previous or current school year at the time of application will be ineligible for driving privileges during the upcoming or current school year.
 5. Student parking permission and decals will be issued to the zero (0) suspension tier first (Tier I). Parking decals will be issued to this group of eligible students on a first come, first served basis.
 6. Tier II students will be issued permits and decals after all those who have requested permits in Tier I have been served.
 7. Due to the limited number of parking spaces at each school, tier eligibility does not guarantee that students shall receive a parking decal. Those students with exemplary school citizenship and who submit their application on time will have the best opportunity to receive the student parking permit.
 8. This policy shall apply to all students, including those in the marketing education program, auto mechanics program and early release programs.
 9. Transfer students may apply for a parking permit. Permits will be issued based upon need and availability.

Driving to school and parking on school grounds is a privilege and will be offered to seniors first based on a student's attendance and disciplinary record, in accordance with Policy No. 8840. Additional parking may be offered to junior students depending on availability during the school year.

A student parking fee established annually by the Board of Education will be assessed to all students receiving a student parking permit to help offset the cost associated with student parking. The fee will be collected at the time the permit is issued. The fee is non-refundable for any reason.

Students must fulfill all financial obligations prior to receiving a parking permit. Students will not receive a parking permit until all financial obligations and the student parking fee have been paid.

The application procedure for school parking will be conducted during the summer. The failure to adhere to announced deadlines may result in the loss of eligibility for the receipt of a parking permit. This parking policy shall be in force at all district high schools at all times unless modified by future action of the Board of Education.

Medical Exemption

A medical exemption to this policy may be granted by the school district. A formal written request needs to be filed by the student's physician. The district will have the request reviewed by the school district medical inspector. Upon the medical inspector's verification of the request, the student will be issued a temporary medical parking permit and that student will be exempt from the student parking fee. The permit will be clearly identified as medical and must be displayed on the front dashboard of the vehicle.

All permits will be issued in intervals of no more than thirty (30) days. All extensions must be reviewed by the high school principal, or his/her designee.
