

Name: _____

PowToon Brainstorming Sheet

You will be creating an online “How To” video using PowToon. Before you begin, we are going to determine your topic and steps to make the project a little easier.

For each step, briefly name the step and then write one or two sentences about the step.

For example, I’m creating a “How To” video on making peanut butter and jelly sandwich.

Step One: Gather Ingredients and Tools.

Go into your cabinet and take out the peanut butter, jelly, and bread.

Go to your silver wear drawer and take out a knife and spoon.
