

WEB DESIGN LAST PROJECT 2017

.....

For this project you will be assigned a CLIENT. The 5 page website you will be creating will be developed for your client, with your client's needs and wants in mind. Only the homepage will directly be about your client. The other 4 pages will be topics your clients give you.

In order to finish the website in the time given, you will be kept to a schedule. Part of your 4th Marking Period grade will be if you have met the deadlines given. If you are absent it is your responsibility to make up the time. You must schedule time during a Study Hall or after school.

PARTS OF THE PROJECT

CLIENT QUESTIONNAIRE

Every student will be assigned a CLIENT. You are not to switch clients once they have been assigned. A client questionnaire will be distributed to every student. It is your responsibility to gather as much information about your client as possible. The more information you have, the easier this project will be.

This questionnaire will be graded for **10 points**

WEBSITE SKETCHES

You are now ready to begin sketching out the website. The page requirements are detailed out in the Final Exam Rubric. Include as much information as possible (colors, links, sounds, exact topics, paragraphs of information, bullets, etc)

Remember the shell of each page (Web Banner, Navigation Bar, and Address Bar) will remain constant. Once your sketches are completed, you will present them to your client and make any necessary changes. Once they are approved by your client you will turn them into me.

NOTE: I am using these sketches to make sure you understand requirement of the website. So use the criteria for success and make sure all elements make it. Your final page will never be checked against your sketches since many designers will change their minds while creating a page.

These sketches will be graded for **10 points**

ILLUSTRATOR

Once your sketches have been approved by your client, you may begin designing your images in Illustrator (Header and Buttons) You will have 2 days to complete these images. Remember to save each image as an Illustrator file as well as a JPG or GIF. These images should be saved in the Final Project folder on your H: drive. The completion of these illustrator files on time will be graded and is worth **10 Points**.

Header should be between 900-950 in width, 200-250 in height (IN PIXELS!!!!)

Buttons should be Header width/6 in height and between 100-200 in height.

CONTRIBUTE WEBSITE DESIGN

You are now ready and able to start designing your website in Contribute. Be sure to review the rubric periodically and ask your client for feedback. You will have 12 Days to complete these pages. Stay on task and work diligently. After a few days you will be given a participation grade worth **21 points** for completing 3 of the pages, each page completed will be worth 7 points.

Note: Even though you have a partner, your grade has nothing to do with your partner and will be earned solely by your work and effort.

**PLEASE REMEMBER TO SCHEDULE EXTRA TIME IF YOU NEED IT.
ALL PROJECTS ARE DUE JUNE 9th, NO IF, ANDS OR BUTS!!!! YOU
MAY BE RESPONSIBLE TO TRANSFER YOUR CONTRIBUTE
ACTIVITY FOLDER FOR THE FINAL ON TO A THUMB DRIVE AND
TURN IN THE THUMB DRIVE WITH YOUR NAME ON IT!!!!**
