

Convert a YouTube video to an MP3

- *Go you YouTube and find a song that you would like to use.
- *The song should be school appropriate and not distract the viewer from your movie.
- *Try searching for instrumental or karaoke versions of songs.
- *Copy the URL
- *Go to <http://www.flvto.biz>
- *Paste the URL in the *Insert video link*. Make sure that mp3 is selected from the drop down box and click *Convert*.
- *The video has now been converted to a music file. Click the **green Download button**. The file will open in the bottom, left corner of Google Chrome.
- *Click the arrow and choose Show in Folder
- *Cut the MP3 file from the Download folder. Paste the file in your H: drive.
