

# Add Rules and Attach Cascading Style Sheets

## Lesson 3 Activity

### Add Rules to a Cascading Style Sheet

1. Open Striped Umbrella and open the Spa page. Click **su\_styles** in the CSS Designer panel.
2. Click the plus sign under **Selectors** Type, then type **.headings** in the Selector Name text box.
3. Select the Text icon and make the following selections:

Font family - **Arial, sans-serif**  
Font-size - **24**,  
Font-style - **normal**,  
Font-weight - **bold**,  
Color - **#000003**, then click OK.

4. Switch from Text to the Layout in the CSS Designs Property Panel, by Clicking the **Layout icon** in the Properties panel. Click the **display category** and then click **block**.
5. GO back to the text properties by Clicking the **Text icon** in the Properties panel. Click **text align, center**.

6. Select the heading text "The Sea Spa Services" click the **HTML button** in the Property inspector, set the Format to **H1**, and then click the **CSS button** in the Property inspector.

(\*\*TIP – Before you apply a style to selected text, you need to remove all formatting attributes such as font and color from that text, or the style will not be applied correctly.\*\*)

7. Apply the **heading** rule to the words "**Spa Services**" - Use the drop down box next to **Targeted Rule** in the Property inspector in order to select the heading rule.
8. Click the plus sign under **Selectors** Type, then type **.list\_headings** in the Selector Name text box.
9. Select the Text icon and make the following selections:

Font family - **Arial, sans-serif**  
Font-size – **16px**,  
Font-style - **normal**,  
Font-weight - **bold**,  
Color - **#000003**, then click OK.

10. Switch from Text to the Layout in the CSS Designs Property Panel, by Clicking the **Layout icon** in the Properties panel. Click the **display category** and then click **block**.
11. GO back to the text properties by Clicking the **Text icon** in the Properties panel. Click **text align, center**.

12. Select the heading text "Massages, Facials, Body Treatments " click the **HTML button** in the Property inspector, set the Format to **H2**, and then click the **CSS button** in the Property inspector.

(\*\***TIP** – Before you apply a style to selected text, you need to remove all formatting attributes such as font and color from that text, or the style will not be applied correctly.\*\*)

13. Apply the **heading** rule to the words ""Massages, Facials, Body Treatments " - Use the drop down box next to **Targeted Rule** in the Property inspector in order to select the heading rule.

14. Create another rule. Click the plus sign under **Selectors** type, then type **paragraph\_text** in the Selector Name text box.

Apply the following properties to the rule:

Font family - **Arial, sans-serif**

Font size – **14 px**

Style - **normal, the click OK.**

Color: **#000036**

15. **Apply** the **paragraph\_text** style to **all the text** on the page **except** for the **blue text** that already has the **body\_blue** style applied to it and the heading text "Questions you may have."

16. Select the text **Questions you may have**, click the **HTML button**, click the **Bold button** to remove the bold setting, click the **CSS button**, click the **Targeted Rule list arrow**, then click **.headings** to apply the heading rule.

17. Click **File** on the Application bar, and then click **Save All**, to save both the spa page and the **su\_styles.css** file.

### Attach a style sheet

1. Close the spa page and open the index page.
2. On the CSS Sources panel, click the plus sign and then click the **Attach Existing CSS File button**.
3. Browse to select the file **su\_styles.css** (if necessary), verify the **Link option button** is selected, and then click **OK**.
4. Select the opening paragraph text and the contact information paragraph, click the **HTML button**, then Format to **Paragraph**, click the **CSS button**, click the **Targeted Rule text box**, then apply the **paragraph\_text** rule.
5. Save your work.
